BUILDING

ZUTRONIC is a brand of the Company **ENERGY SERVICE** specialized in the design and production of custom power conversion systems for Oil & Gas, Energy, Transportation, Utilities, Industrial, Service and IT applications.

Energy Service, with an experience of more than 30 years in the energy conversion sector, has been involved in hundreds of supplies to major EPCs for custom designed systems for international projects and solutions and has enabled us to acquire an important know-how that is constantly recognized.

Since the very first years, the company stood out for its technical competence and reliability to support its Customers in all phases of the project.

The products are designed and manufactured in the dedicated plant located in Mantova, while the headquarter and sales office are located in Brembate di Sopra (BG), about 40 km from Milan, near the electrical engineering sector Italian most important pole.

VISION

Provide the maximum protection to Customer critical applications, even in harsh environmental conditions. Contribute to the reduction of energy consumption by offering efficient and competitive solutions

MISSION

Engage with passion and tenacity in providing appropriate solutions in order to reach the highest level of reliability for **energy continuity** using technologically advanced equipment.

Guarantee a **full support to our Customers**, from technical support when choosing the product up to the scheduled maintenance. In summary, change our Company from simple providers to a **competent and reliable partner** with a 360° support in all phases of the project.

CORPORATE VALUES

The company is committed to obtaining the main values on which it is founded for customers, employees and partners, in particular Customer Satisfaction, Competency, Reliability of both products and delivery and response time, constant and continuous improvement. In line with our vision, we set ourselves the goal of ethical management of environmental and human resources. Our strengths are:

- Experience of more than 30 years in the power conversion industry
- Maximum flexibility in Custom solutions
- Strong technical skills
- Certified design and production made in Italy
- Innovative technologies

Customers satisfaction is our priority: from design to execution, from quotation to procurement and after sale service, you will get immediate response, proper follow up and continuous feedback.

We support our key partners in their marketing activity worldwide from the request for quotation, to project management, procurement and refurbishment.

We are able to support our customers in all critical phases of the project: from the estimates and supply of products to activities such as testing, commissioning, personnel training (even remotely), preventive and corrective maintenances, spare parts and after-sales activities.

R&D - CERTIFICATIONS

In 2017, the company has been certified according to the latest and most recent version of ISO9001: 2015 for the quality management system of its products, processes and services and its products comply with major international standards (IEC, EN, CEI)

SERVICE

SERVICE ACTIVITIES HELP TO ENSURE THE CRITICAL LOAD SUPPLY CONTINUITY.

Our testing facility is equipped with workstations having advanced measuring systems for the execution of the Factory Acceptance Test witnessed by the customer.

After delivery, all activities in order to maintain efficient systems in the plant are provided, such as:

- COMMISSIONING
- PREVENTIVE MAINTENANCE
- CORRECTIVE MAINTENANCE
- SPARE PARTS
- CUSTOMER TRAINING NEVER POWER

OUR PRODUCT RANGE

ZUTRONIC products are the following:

DC Power Supply Systems

- Rectifiers - Battery Chargers
- DC / DC converters
- Distribution panels

AC Power Supply Systems

- UPS
- Inverters
- Voltage regulators
- Frequency converters
- LV distribution Panels

Accessories:

- Batteries
- DC loads for discharge battery test
- Battery Monitoring Systems
